

Andrew Oh

front-end / user interface developer

650.201.9019 | me@andrewoh.co | www.andrewoh.co

EXPERIENCE

American Specialty Health, Inc.

Senior User Interface Developer

Support the rest of the User Interface Development team by taking the lead in special development projects, maintaining high code quality through code reviews, and exploring the implementation of new technologies that can help increase both the quality and quantity of the User Interface team's work.

San Diego, CA
2015 - Present

User Interface Developer

Create front-end templates by converting wireframes & mockups from the design team. Provide all the necessary components to hand off to the development team for implementation of the user interface.

2014 - 2015

UC San Diego Campus Web Office

Web Developer

Create, edit, and migrate university-affiliated websites. Suggest improvements to existing sites based on aesthetic principles as well as best practices for UX & Information Architecture.

Lead developer on special projects like the UCSD History Timeline, Administrative Computing & Telecommunications 2013 Annual Report, and the UCSD Decorator upgrade.

La Jolla, CA
2012 - 2014

UCSD Guardian

Web Master

Edit and maintain the Guardian's webpage using Joomla CMS

La Jolla, CA
2012

Photo Editor

Edit photos and other visuals for use in the newspaper and website. Direct photographers to take up assignments that need photographers and manage payroll for the photographer staff.

2009 - 2012

EDUCATION

University of California – San Diego

B.S., Cognitive Science: Human Computer Interaction
